*The Wildlife Trust of India recognises
the outstanding achievements of
Dr. Ravi Sankaran
in the field of research for wildlife conservation
and confers upon him the
Endangered Species Award 2004,
on this day, the 19th of February 2004.*

*Dr. Ravi Sankaran has worked for years
to protect the Edible nest swiftlets in Andaman
and Nicobar Islands. In a rare mix of science and
pragmatic conservation, Dr. Sankaran has been
able to imbue a sense of pride and ownership
among the people who make a living out of
harvesting swiftlet nests. His work has given
swiftlets in Andamans a new lease of life.*
