

Division of Genetics
Indian Agricultural Research Institute
New Delhi 12

November 7, 1969.

Dear Mr Sukumaran,

It was really nice of you to have spared so much time for me in showing me around your laboratories and permitting me to get acquainted with the the interesting work being done there. It was rather inspiring to talk with the members of the staff as well as the students of Genetics Group there.

We have tried the hemoglobin samples that you were kind enough to squeeze out of your precious collection. Our preliminary results are quite satisfactory. However, when a detailed report is ready we will send it to you for your concurrence.

Thanking you once again,

Sincerely yours,

Y.R. Ahuja
