23rd February, 1953.

Dear Dr. Krishnan,

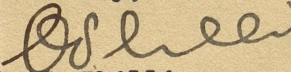

I have now returned from my very short visit to your country, and I wish to thank you for the facilities you afforded me for seeing the work of the National Physical Laboratory. I was certainly impressed by your buildings and by the enthusiasm of the staff.

Since my return I have had a short talk to the Commonwealth Relations Office and they again pointed out that their assistance under the Colombo Plan is in respect of applied research as well as technical training. It appears to me that there should be little difficulty in meeting the list of books requested by your Laboratory.

I sincerely hope that at some time in the future it will be possible for me to re-visit your establishment, and to renew the very many pleasant contacts I made there.

Best wishes and kind regards,

Yours sincerely,

C. E. Phillips,
Head of Division

Dr. K. S. Krishnan,
Director,
National Physical Laboratory
of India,
Hillside Road,
DELHI,
India.
