Respected Professor,

You may kindly remember my request for kind help to enable me to attend the Electron microscopy Congress to be held in Tokyo, in October. Since writing to you, I have also received information that they have put me down as the Chairman of one of the sessions. I have replied them saying that my attending will depend on a grant being received from the Govt. I shall be highly grateful if you can help me in getting the deputation sanctioned.

With Regards

Yours sincerely

T. V. Desikachary
