To,

Dr. H.S. Krishnan, F.R.S
Indian Physical Laboratory.
New Delhi,

Dear Sir,

The other day, I received a letter from my father, Mr. S. Suri, who mentioned your name in his letter stating that you were a fast friend of his. Sir, the lucky writer to you is none other than his son - Bhaskar Suri. I am greatly overjoyed in having written to you.

This is to tell you Sir, that I am a student of B.Sc. (Prev.) of Allahabad

University at present and I did my High School and Inter from B.N.S.D College Kanpur. Both in High School and Intermediate, I got first class while in the latter subject I got distinction marks in Chemistry. My age is 17 and my principal aim is to join some good Engineering Institution, preferably in Railway, Electrical or Civil Engineering branches. The seed of interest was sown in me by reading so many scientific magazines and books of today and keeping this in mind I had earlier resolved to take up this much interesting branch. My favourite subject is Chemistry though I have ample interest in other subjects as well. I was also lucky to gain two Silver medals in V Standard, Huddard School, which is run on English lines.

Besides the above, I am also fairly good at games, having represented Uttar Pradesh in Table Tennis for two successive years.

(from 1951-52)., and having represented my college in cricket, which won the 1st Collegiate Cricket trophy at Kanpur.

With this Sir, I bring my letter to an end, hoping to get some words of inspiration from you.

Yours humbly.

Bhaskar Suri

My dear Dr Krishnan,

Excuse me for my prolonged silence.

The pity is that I am out of job and everything seems to take its own time. What a a wreck I have become. It is God's will.

Time is come for my 2nd Son Bhasker Suri to try. He has applied for Engineering course all over the country - Khergaon Jamalpur Pilani etc. What reply hopeful he will get is more than I can guess.

His 1st class in the Inter mediate Exam is his standard. Hope it will help him. But I shall carry out any advice you might advance. Any ~~scholarship~~ scholarship outside India that comes across your ken, will be equally welcome. Please drop a line to keep me happy.

yours Sincerely

P Suri
