FIRST FOLD

SECOND FOLD

PRINCETON UNIVERSITY, Department of Chemistry, Princeton, N.J.

March 1, 1948

Dr. S. S. Bhatnagar:

I want to thank you most sincerely for your
in forwarding a Christmas present to me through
awla, who is now happily at work in the Institute
of Advanced Study at Princeton. Mrs. Taylor and I are
greatly pleased to receive this kind memento of your good self. We
enjoyed having you here with us and we maintain
close contacts now through a good group of Indian

I want to commend to your attention especially
Dr. Mehta, who is a Government of India Fellow from
Bombay area. He has established a record of
"outstanding excellence" in the field of physical
chemistry in the Department here, having passed the best
examination on here in a generation. He is completing his
doctoral requirements and should obtain his Doctor's
degree with distinction in June of this year.

With best personal regards,

Very sincerely yours,

Hugh S. Taylor
