V. K. Chandrasekhara Panikkar. Msc Tech.
Hotel Star of Cochin.
Dadar. Bombay. 14.

Dear Mr Rama Chandran,

I am very much thankful to Dr. Krishnan and to you in arranging to send to me the memo for interview. I was very unfortunate in missing my chance in N.P.L. After I came to Bombay, I went home on an urgent matter and on my way home I had an attack of chicken pox and was laid up in a hospital in Madras for some time. Thus I missed the interview call and my six months stay in Delhi expecting a job in N.P.L. ended tragically due to sheer bad luck. I beg to Dr. Krishnan to excuse me.

I have come to Bombay few days back. I am still without any job. Here I have ^{applied} in Atomic Energy Commission for admission to the Technical School of Atomic Energy Commission. According to one of their recent advertisements they are taking 250 candidates (mechanical, electrical, chemical and technology graduates) for training in this school. I understand that these applications will be taken for consideration in the first or 2nd week of June.

I beg to Dr. Krishnan to help me in this matter. I have given the names of Dr. Krishnan and Sardar Panikkar as the two referees they have asked ^{to mention} in the

in the application.

Kindly inform me if Dr. Krishnan is coming to Bombay within 2 or 3 weeks so that I can meet him here personally and request him to help me. Further please let me know his reaction to that letter.

Yours Sincerely,
V. K. C. Panikkar.

J. K. Panikkar ar
