30th July '50

Dr. Sir Alagappa Chettiar, M.A., Litt.,
Bar-at-law,
Karaikudi.

Dear Doctor,

I hope you are in receipt of my
congratulatory message for the college function
addressed to the college authorities.

You remember I gave you yesterday
morning the address of Dr. C.V. Ramakrishnan, M.Sc
Ph.D., F.I.C.S, Department of Bio-Chemistry,
Indian Institute of Science, Bangalore. The
candidate is my elder brother Sri T.S.Kuppuswami's
brother-in-law and he has had brilliant academic
qualification and his Doctorate at a very early
age. He is hardly 23 or 24 and is already in the
employ of the Government of India on Research in
adulteration of milk and LIPOIDS. He has taken
first class medals from his University in Bombay.
He is ~~hardly~~ getting a pay of Rs 350/- and is very
keen on research work, very enthusiastic, being
young and energetic. He has had many calls for
research in America but due to financial diffi-
culties he is unable to proceed. Hence he has
applied for the job, the ~~cutting~~ cutting of which I have
given you. Mr. Bhatnagar has the sole voice for
appointing candidates for this and he may not
do better than selecting a deserving candidate
like this who possesses all the necessary quali-
fications. Poverty is his only disqualification.

Hence may I request you to kindly
put in a very strong word on behalf of this
young man to Mr. Bhatnagar and see that he is

P.T.O.
