

D. Bhagavanulu. M. A.,

LECTURER IN PHYSICS,  
MAHARAJAH'S COLLEGE.

Received  
2/10/47

Vizianagram,  
D/18-6-1947

Dear Sir Krishnan,

My sincere congratulations on your appointment as  
the first Director of the National Physical Lab.

I hope you haven't yet severed your connection  
with the Orisabad Univ. If so, I trust you will do a  
little good to a student who is desirous of talking the M.Sc  
in Physics by research in your Univ. He is Sri A. L.  
Narasimhan who passed his B.Sc (Hons) in Physics in high  
second class a few years ago. He was a demonstrator in this  
College for 2 years and a lecturer in the Department of Physics  
last year. I think your Univ. permits outside students

to talk the M.Sc. by doing research for one year. I have  
recommened this course to him hoping that you will  
be there. If it is possible to talk him this year. Kindly  
help him. He is applying to the U.S. Dept. of Defense.

With regards,

Yours sincerely,  
D. Bhargava
