

# NATIONAL CHEMICAL LABORATORY

COUNCIL OF SCIENTIFIC & INDUSTRIAL RESEARCH

no. 132/39 .

No. 1, GANESHKIND ROAD  
POONA 5

Dated 7th January 1948.

My dear Dr. Sahib,

I am very glad to read in the morning papers that you have been elected as the General President for the next session of the Indian Science Congress. The election is more of an honour to the Science Congress rather than to you. Your reputation at this stage stands in no need of demonstrative public recognition. But it will be the good luck of the Science Congress to be guided by an eminent scientist of your calibre;

I wonder whether you went to Patna for the Science Congress. I could not leave Poona owing to pressure of work and my anxiety to see the construction work started this month.

Hope you are keeping well. With best regards.

Yours very sincerely,

Sir K. S. Krishnan, FRS,  
Director, National Physical  
Laboratory,  
University Buildings,  
DELHI.

  
(B.D. Laroia).
