Shri Y. Sundararajan  
ISRO Technical Liaison Unit  
P.O. Box 306  
Lanham, MARYLAND 20801  
U. S. A.

Dear Shri Sundararajan:

We have received a letter about ERTS-1 Symposium which is rescheduled for March 5-9 1973. Since we are not in a position to depute someone from here to participate in the Symposium, we would like you to attend the Symposium on our behalf and collect all the papers and abstracts and send them to us along with a brief report.

A copy of a letter received from Dr. Freden dated 4th January 1973 is enclosed. The exact venue of the Symposium is not clear to us from this letter. Kindly enquire from Goddard Space Flight Center regarding the venue.

*Sheraton Motor Inn*

With kind regards

Yours sincerely

*P.R. Pisharoty*

P.R. PISHAROTY

c.c. to Shri N. Seshan. Prof. Yash Pal suggested line that a knowledgeable person belonging to ISRO, now in U.S.A., participate in the Symposium. It is felt that Shri Rajan can do the job.

4 January 1973

Dear Colleague:

The ERTS-1 Symposium, announced in our letter of 14 December 1972, is rescheduled to an earlier date, 5 - 9 March 1973. We regret the need for this change and realize that it may cause some inconvenience, but NASA feels that it is imperative to evaluate the results from the ERTS-1 investigations before the ERTS-B proposals are evaluated and final selections of the ERTS-B investigations are made.

Due to this change, the deadline for submitting abstracts is now 9 February 1973. If you plan to attend, please fill out and return the attached form as soon as possible

Sincerely

Sd/-

Dr. Stanley C. Freden  
Symposium Chairman
