D.O. No. F.3 (3)/92-93

Date 5.1.1993.

Dear Dr. Joshi,

At the out set please accept my best wishes for a very happy and prosperous New Year 1993.

I wish to record my sincere thanks to you for all the help extended by you in analysing the data of our project work for the purpose of mathematical modelling despite your schedule of work. I hope you will further work on the data handed over to you and help me in getting a clear picture on disease prediction model for anthracnose disease.

Meanwhile, on my return to Hunsur I have personally scrutinized the entire data recorded in floppy disc and could find few corrections to be made which is given ⁱⁿ the attached sheet. I request you to kindly incorporate the necessary changes in the floppy disc as well, as in the analysis sheet.

I shall be attending World Neem Conference in the last week of February at Bangalore. If the analysis etc., are ready by that time, I will be able to club my programmes accordingly. Even otherwise if my presence is required prior to it, I shall be there if intimated accordingly.

I thank you once again for the full cooperation extended by you for the proposed analysis of our project work.

With best regards,

Yours sincerely,

(M.M. SHENOI)

Date 23.3.1993.

Dear Dr. Joshi,

Thank you for your letter dated 11.2.1993. Hope you have attended on the computations for the data of Project P.1.6 as per the discussion we had. I was eagerly waiting for the communication from you regarding the final out-come of the analysis. I would like to send one of our colleagues to your laboratory to assist you in the work if required. Kindly drop a reply indicating your availability at your office so that I can ask my colleague Dr. S. S. Sreenivas to approach you on the date indicated by you.

I am thankful to you that you have agreed to do the needful despite your busy schedule of works, and I am confident that final interpretation will be available for me to present in the ~~Bannan~~ Staff Research Council meetings which are scheduled to be held soon.

Thanking you,

WISH YOU HAPPY UGADI.

Yours sincerely,

(M. M. SHENOI)

D.O. No. F. 3(3)/93-94

Date 4.11.1993.

Dear Dr. Joshi,

We have been eagerly waiting to hear from you with regards to the final analysis of voluminous data provided for developing a mathematical model for prediction of anthracnose disease of tobacco nurseries. I hope that the analysis work has been carried out as discussed in which case I request you to kindly do the needful. Meanwhile, I may mention here that in the recent Staff Research Council Meetings while appreciating the results on this disease it was felt that the prediction model should be evolved soon and tested before developing disease management strategy.

I may please be informed if any one of us is required to associate in the analysis work.

With best regards,

Yours sincerely,

(M. M. SHENOI)

Dear Dr. Joshi,

Trust this letter finds you in good health and happiness. I am sending my colleague, Dr. S.S. Sreenivas, to discuss with you regarding the analysis of the data of our project P-1-6 as discussed earlier. I am sorry Sir, for giving you lot of trouble at a time when you are very busy with your own project work and other official commitments. I can understand your possible inconvenience. But, since it is already more than a year, I have to submit the conclusions drawn from the analysed data to my office for further necessary action. Hence I request you to kindly do the needful if feasible at an very early date. Dr. Sreenivas will discuss with you in detail and clear ~~out~~ doubts, if any, on the data given. Also, please suggest whether he should attend the work above with you in which case you may please give date etc. Of course, if it is going to take much more time in view of your tight schedule, I have also

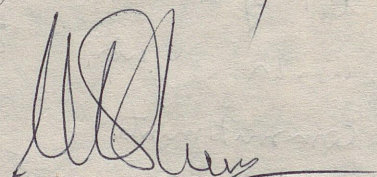

Suggested to Dr. Srividya - not to trouble you
and get the data & floppy back. I am very
sorry once again for causing lot of ~~incon-~~
inconvenience to you.

My brother-in-law, Mr. Ramesh, ex.
employee of IISc is in India since few
months. He returned from USA after completing
his assignment with previous firm and is
now offered some better assignment by another firm
which he is negotiating. He has is finding
it difficult to get VISA for his family.
And hence the delay in his return to USA.

That is all.

With best wishes

Yours sincerely

M 2/94

(Dr. M. M. Shinde)
