Subject: Re: Rajasthan references

Dear Mr. Pittie,

Accept my sincere thanks for the help and guidance. The database that you have provided is really very exhaustive. I will certainly acknowledge your help in any work.

In fact your earlier work also helped me to compile literature on birds but this time the database sent by you have added attraction in form of references from Newsletter for Birdwatchers. I do not have all the issues of the same, my senior birdwatcher friends also do not have all the issues.

I also regret the delay. In fact these days I am at Bharatpur, the place where I serve. Here the DOT has withdrawn services offered to private ISPs (i.e. Satyam & Datainfosys). The DOT connections can be applied only at Jaipur so it became difficult for me to keep in touch with people through internet. The town has only 2 cyber cafes as per my knowledge and both of them faced the same problem.

I will let you know about any additional references. There may be only few as you have included almost all. Do you have same data in form of word table or excel worksheet. I have stored all my references on spreadsheet format for the sake of compatibility so it will be much convenient for me to compare my and your reference in that case.

Please keep in touch.

Thanks again and regards.

Subject: 1. new references and 2. photocopy request

Dear Aasheesh,

A good and a bad news.

Good news:-

I have found a few more new references for you.(listed below)

Bad news:-

I need photostat copies of these articles from newsletter. I will send you payment shortly.

Regards and sorry to trouble you again

Dhirendra

ps : I have repeated Tukurwara lake item 1963 3(2) so please do not send a copy if you have mailed me this one recently.

If you wish I can send you these references in a tabular part, otherwise you can convert this in a table by copying to MSWORD.

+++++
