Dr. Sir K.S. Krishnan,
c/o The High Commissioner for India,
India House,
Aldwych,
LONDON, W.C.2.

Dear Sir,

We have been advised by our Associate Company in India, Messrs. Philips Electrical Co. (India) Ltd., that you are on a mission in this country investigating equipment for the National Physical Laboratory, Delhi. We, as you know, together with our Associate Company, N.V. Philips' Gloeilampenfabrieken, Eindhoven, specialize in high voltage equipment and electron microscopes and consider, therefore, that we should be able to be of assistance to you.

Perhaps, therefore, you would be good enough to communicate with the undersigned when any details of visits to our laboratory both here and in Eindhoven could be discussed.

Yours faithfully,

PHILIPS ELECTRICAL LIMITED
