Liège, le 9th March 1946.

1 A, Quai des Etats-Unis,

Professor KRISHNAN D.Sc.F.R.S.
Professor of Physics
University of Allahabad,
India.

Dear Professor Krishnan,

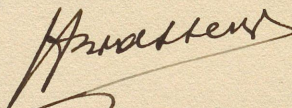

I was very glad to receive news from you and to learn that you have moved to Allahabad.

The city of Liège has had a very bad time during the war and received a considerable number of V_1 and V_2 's during von Rundstedt's attempt to recover the lost ground.- Fortunately, we are now in a better position to carry out new work.

Professor V.Henri died at the beginning of the war and Professor Rosenfeld is now Professor at Leyden University. Safe for Professor Swings who is temporarily in the States, all other Colleagues are still in Belgium. I shall not fail to convey them your best wishes.

I hope you will soon have another opportunity to travel in Europe so that we shall be in a position to meet again.

Very sincerely yours,

H. BRASSEUR

Liège, August 28th 1946.

Dear Professor Krishnan,

Having been on holidays up to now, I just receive your letter of the 21st of August telling me that you intend to make a 2 days stop in Liège.

I shall be in Liège from September 12 so that your arrival in Liège round the 13th would suit my schedule very well.

As to the accommodation, it will certainly be very easy to find some comfortable in Liège. I should gladly accommodate you at home if I did not fear you would find it uncomfortable.

Please let me know as soon as possible about the final arrangement as I shall not be in Liège from the 5th to the 11th of September.

I am looking forward with pleasure to your arrival in Liège.

With kind regards

Yours sincerely

Frassens
