My dear Prof Dronamraju,

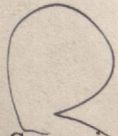

I thank you very much for your kind letter of 16 April enclosing the revised version of the biographical chapter. I thank you very much for the trouble you have taken in this matter. The Report has been prepared well.

I enclose copies of two papers, one published by the Ramon Magsaysay Foundation, when I was given the Magsaysay Award for Community Leadership in 1971 and another, a chapter from the book by Don Paarlberg on "Toward a Well-Fed World", published by the Iowa State University Press in 1988.

I hope you will be coming to India under the Tokten scheme soon.

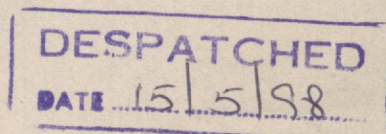

With warm personal regards,

Yours sincerely,

M S Swaminathan

My dear Prof. Swaminathan:

I am enclosing a slightly revised version of your biographical chapter. I would be most grateful if you could kindly go through this and send me your comments. I have another copy here, so you need not return it. This chapter will be included in my book, "Profiles in Genetics", which is still under preparation. Others included are George Beadle, Erwin Schrodinger, Joshua Lederberg, Max Delbruck, Barbara McClintock, C.D. Darlington, etc.

I would appreciate it if you could feel free to make all necessary changes and suggest additional information which may be relevant (especially any highlights of your valuable contributions which I may have missed).

With best regards,

Yours sincerely,

KRISHNA R. DRONAMRAJU
