Miss Krishnaja, A.P.
Department of Zoology
Institute of Science
Bombay - 400032
India

Dear Miss Krishnaja,

Thank you very much for your letter of August 19, 1980 in which you inquire about the possibility of a postdoctoral fellowship with me. Unfortunately, you are writing at a very difficult time. Our laboratory is supported completely by the Department of Energy, which is undergoing severe budgetary problems. Consequently, I am not able to place any people in my laboratory this coming year over and above those to whom we have already made commitments.

I am indeed sorry that I cannot be more encouraging.

Sincerely yours,

Sheldon Wolff
Professor of Cytogenetics

SW/kd

letter written on 29-10-80.

Dr. Matheijm, A. T.

and chemical mutagenesis.
Rijks universiteit of Leiden
The Netherlands.

Dear Prof. Wolff,

I thank you
for your letter dated 2-17-9-80
I fully understand your
difficulty in offering me a
post-doctoral fellowship with you
because of severe budgeting
problems. However I am very
eager to have an opportunity
to work in your laboratories
and since I am planning to trip

some sources for this end
for financial assistance.

In order to facilitate this
I should have a letter to
this effect that you are
prepared to take care with
no financial commitment on
your side.

I am sending here with my
curriculum vitae for your regard.

~~I say~~ I have already
submitted my doctoral dissertation
& hope to have my viva voce
in a fortnight's time.

I earnestly hope that
you will do your best in the
matter.

29-10-80

Dear Prof. Wolff, I thank you for your letter dated 17-9-80. I fully understand your difficulty in offering me a post-doctoral fellowship with you because of serious budgetary problems. However, I am very anxious to have an opportunity to work with in your laboratories and hence I am planning to tap some sources from this end for financial assistance. In order to facilitate this I should have a letter to the effect that you are prepared to take me with no financial commitment on your side. I am sending herewith my curriculum vitae for your information. I have already submitted my doctoral dissertation and hope to have my viva-voce in a fortnight's time. I earnestly hope that you will do your best in the matter.

Thanking you and with kind regards,
Yours Sincerely,
A.P. Kashnaja
(Kashnaja, A.P.)

Dear Miss Krishnaja,

Thank you for your letter of October 29, 1980 in which you expressed an interest in spending a year in my laboratory. As I had indicated earlier, we are unable to make any financial commitments because of budgetary restrictions. You have, however, indicated that you might be able to come without any financial assistance from the Laboratory of Radiobiology.

Under such circumstances, I am pleased to say that we would be able to squeeze you into the laboratory for a year. I am sorry that we cannot help you financially, but I hope you will be successful in raising the necessary funds.

Sincerely yours,

Sheldon Wolff
Professor of Cytogenetics
