My dear Mr. Swaminathan:

As the German contribution to the European Public Campaign initiated by the Council of Europe, the Development Policy Forum of the German Foundation for International Development (DSE) will hold a Round Table on Environment, Natural Resources and North-South Interdependence at Villa Borsig in Berlin (West) from 8 to 11 March 1988.

The meeting will draw attention to the critical state of the global ecosystem and to the need to make careful use of natural resources in North and South. It will then proceed to elaborate findings to be presented at a final conference of the Campaign in Madrid in June 1988.

To ensure media coverage, German editors and journalists familiar with the subject matter will join in the proceedings. The Round Table will conclude with a public session.

The Development Policy Forum would be honoured if you could accept an invitation by the Federal Republic of Germany and the Senat to take part in this meeting. Would you please be kind enough to see to it that the attached registration form is completed and returned. This will enable us to provide you with an air ticket and to meet you at Berlin-Tegel airport.

Yours sincerely,

Alexander G. Friedrich
