

ANNAMALAI

UNIVERSITY

ANNAMALAINAGAR,

16-8-1954.

Dear Dr. Madhava Rao,

Please find enclosed 1) the report on the Ph. D. thesis of Sri Nanjundiah and 2) the Remuneration bill for the same duly stamped and signed. Please send the bill to the Registrar along with final report.

I wrote to Dr. R. V. about five days ago saying that, in a talk with you, I understood that the standard of your Ph. D. is not far above that of the M. Sc. by research of Madras or Annamalai and that the letter was intended to enable him to judge the thesis with reference to the standard expected. I hope the letter is alright. I do not know whether more could be written to a person like Dr. R. V.

With best regards,
yours sincerely,
V. Ganapathy Iyer.

re. The paper for
Presidentship of I.M.S

Dear Dr. Madhava Rao,

I have asked Sri S. Swetarangam, a research scholar working under me, to send you a paper on the Averages of Fractional parts which I request you to communicate to the Editor of the Proc. of the Ind. Acad. of Sciences. (By the way, who is in charge of the Mathematics Section now?). The results of the paper are interesting since little is known about the behavior of fractional parts of numbers. You can yourself go through the paper and satisfy yourself before communicating.

The Council of the Indian Mathematical Society has proposed my name for the next presidentship of the Society, as you are aware. When Mr. Mahadeva Iyer asked me about it, I suggested that you are a fitter person for that honour than myself. Since my suggestion was not accepted, I thought that I shall as well go through with it since in another two or three years I ~~shall~~ may become totally unfit to move out of my place.

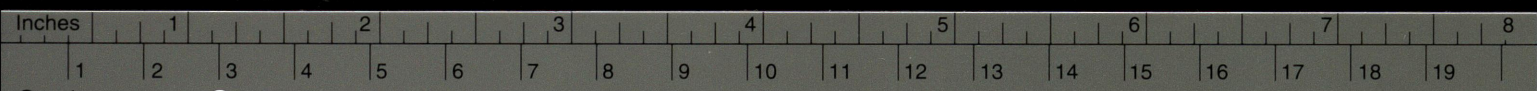

to move out of my place of employment due to my gastric disorders.

Hope you are getting on well. Hope to meet you next July for our Board meeting here. With best regards,

yours sincerely,

V. Ganapathy Iyer.

I have asked Sri S. Sastromam, a research scholar working under me to send you a paper on the averages of fractional parts which I request you to communicate to the Editor of the Proc. of the Ind. Acad. of Sciences. By the way, who is in charge of the Mathematics Section now? The results of the paper are interesting since little is known about the behaviour of fractional parts of numbers. You can yourself go through the paper and satisfy yourself before communicating. The Council of the Indian Mathematical Society has proposed my name for the next presidentship of the Society. as you are aware. When Mr. Mahadeva Iyer asked me about it, I suggested that you are a fitter person for that honour than myself. Since my suggestion was not accepted, I thought that I shall as well go through with it since in another two or three years I shall have become totally unfit to move out of my place.
