

My dear Dr. Mathava Rao,

Prof. Sahni informed me that you would send a paper for our Proceedings this month. Thanks.

I intend to bring out the Proceedings by July next. We are handicapped for want of funds. I expected to get a grant from our Govt. but the Congress having gone out of office, there seems to be no chance of getting any help from that quarter in the near future. It is very kind of you to help us. If possible please get a few more members for us. Ours is the cheapest society so far as subscription is concerned.

It is becoming quite hot here.

I envy you. I shall have to stay throughout
summer at Lucknow (temp. 110° - 115° F) for
I have to complete some work that I
have undertaken.

Hoping to see you at Benares in
Jan. next. Why not come to Lucknow
and stay here for a few days before
going to Benares. I would suggest
that you reach Lucknow on the
22nd, deliver two or three evening
lectures here on your subject and stay
here for a week & then go to Benares.
If you agree, I shall ask Dr. Sahai to send
you an official request. (We shall not be
able to give any T.A., but we shall
publish your lectures).

Hope you are flourishing. With best
regards
Yours sincerely,
A. N. Sengh

P.S. My compliments to Dr. Pichamuthu Ithalians.
