Dear Dr. Swaminathan

Workshop on the integrated vector control in Riceland Agro-ecosystems was most useful and thought provoking. I am extremely grateful to you for providing me an opportunity to participate in this important workshop. IRRI has become one of the most outstanding research institutions in the World under your leadership and we are all very proud of this achievement. Packets have been delivered to Mrs. Swaminathan and we had a nice chat on phone with her.

With profound regards,

Yours sincerely,

V. P. Sharma
(V.P. SHARMA)

Dr.M.S. Swaminathan
