CHIEF SECRETARY
TO H.H. THE NAWAB OF RAMPUR

Lt-Col. H. L. Verma
B. L. Bar-at-Law

11. 9. 53.

Personal

My dear Dr Krishnan,

I wonder if you still remember me. I was Regional Director, Resettlement Employment in the Labour Ministry's Central Govt of India which grew in Delhi. Bridge was my weakness; we have played together quite a lot at various places in Delhi.

I do not know if it entitles me to seek a favour from you, but your association & good nature encourages me to write to you this letter.

My Deputy Varadarajan is a relation of mine. He has done his B Sc in Physics with good second class marks, though he secured first Division in High School studies. He was again unlucky & got only a good second Class in Bsc.

The bearer is a man that he should have the privilege of working under you & is willing to undergo any difficulties or hardships. He would be willing to work in an honorary capacity for three months to prove to you his keenness & proper appreciation of the practical side. I am sure he will win your favour by sheer dint of hard work.

He has applied for the post of Research Assistant in the Natural Physical Laboratory & he assures me that if he is taken on one of these posts, he will prove to you that his election to this post was fully justified.

I shall feel very grateful if you will kindly give him a chance & assure him that his devotion to this science will entitle him to further favours from you.

With kindest regards. Yours truly
