68, Dilkusha, New Katra
Allahabad 211002 India

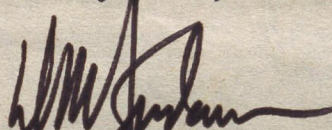

Dear Dr. Bahadur:

Thank you for your very interesting observations on the role of inorganic minerals in the formation of organic complexes. Under separate cover I am sending you a reprint of the article by Amos Banin and myself on "Soil and Water and its Relationship to the Origin of Life"

I am sorry to learn about your difficulties. I hope the future is better.

With best regards.

Sincerely yours,

Duwayne M. Anderson
Chief Scientist
