Dear Sir,

OK

Thank you very much for the interview you were kind enough to give me early this month in your National Physical Laboratory. After I left Delhi I went to Agra where I once again met my brother's father-in-law Dr. H. Srinivasa Rao who introduced me to you at Mr. Srinivasan's house in New Delhi.

While in Delhi, Mr. V. Balasubramayan of A.I.R. arranged for me to see Mr. Baliga. At the end of our talk Mr. Baliga asked me to write to him about my qualifications and experience and I have written to him. I am yet to get a reply from him.

About the 10th inst. I was in Bangalore where I met Prof. Srinivasan and Brig. Kapur with the letters

You sent for them through me. Prof. Srinivaram had nothing to offer me immediately and said he would write to you. Brig. Kapur was kind enough to arrange for a tour of Bharat Electronics buildings. After the end of the tour he asked me to write to his Personnel Dept. I wrote to the department for which I have had no reply yet. I could not meet Mr. Ghosh since he was away on leave.

I am leaving the country on the 5th of February and I expect to reach London on the 6th evening. I shall leave Karur for Madras on the 2nd itself. I must resume duty with the B.B.C. on the 7th of February.

I expect to spend some time with Dr. H. Srinivasa Rao at Katpadi before going to Madras.

Dr. H. S. Rao wrote to me yesterday and he is keeping good health.

I hope I shall have the pleasure of meeting you in London during your forthcoming visit to U.K. in April.

I wonder if it would be convenient to you to write to me.

With Regards,

Yours faithfully,

K.S. Krishna Murthy -
