Dear Dr. Joshi,

After leaving you in February I was trapped again here in the cold. Now the weather is changing. I hope you are fine and busy as always.

I have some data here for Principal Component and Cluster analyses on rhesus monkeys and langurs. If you can find time I shall be grateful to you. The analysis is to be done on the same lines as was done earlier.

Please do inform when you visit Dehra Dun and make a point to visit Shimla also.

With regards,

yours sincerely
R. S. Pirka

Dear Dr. Joshi,

I hope you are in good health. Some months back a data set was mailed to you for Principal Component Analysis. It belongs to ~~one~~ of the Ph.D. thesis of my student. May I ask you to look into this problem.

I know you are busy but I have right to take some of your time.

The weather here is reverse of winter, from extreme cold to extreme warm, a shift again unpredictable.

I hope everybody is fine.
Regards to Prof. Gadgil and Prof. Sulochana Gadgil.

With sincere regards,

Yours
R. S. Pirta
