My dear Professor Krishnan,

I was very glad to see
in newspapers that you are planning
to proceed to England very soon.
I am taking 3 months' leave with
effect from the 4th April and
expect to arrive at Calcutta by
about the middle of April. Letters
for me will be addressed c/o Indian
Association for the Cultivation of
Science. Would you kindly ask
Ashu Babu and the clerks of
the Association that in case any
letters addressed to me are received
in the Association, then should
be retained until I call for them.

Hope this meets you in excellent
health. With kindest regards,
Yours sincerely
S. K. Banerji
