Dear Prof. Sreekantan,

I am sure this letter will find you and Mrs Sreekantan
in best of your health and spirit.

I meant to write to you earlier but then I thought I
will write to you on a good occasion. I am attaching three
copies of the newsletter that has been brought out yesterday.

I am sure you will find it interesting.

I do miss you, so must be others from

the Institute.

*How is your programme getting on?
You must be experiencing more about consciousness
in your present environment.*
