I. VILLAGE BACKGROUND

NAME :

TALUK:

DIST :

- Description of Village landscape; ponds; streams, plain/hilly
- What is the population
 - Literate
 - Illiterate
 - Women/dependency on forest
 - Fuelwood-fodder
- Cattle population/Ownership.

II. ODA/PLANTATION

- Area-Hectares (survey No.)- Model
- Exact dates- Preparation for plantations
- Real Motives- When actual plantations were done (to stop encroachment, fuelwood, bamboo) (SURVEY NO.)

III. NEEDS (Collection of following items from plantation area)

- Fuelwood
 - Fodder
 - Fertilizer (green leaves)
- } From where it is met?
(after plantation)

IV. AFFECTS OF PLANTATIONS

- On people (Minor Forest produce, Agriculture Implements, timber for house)
- On cattle (fodder)
- On Ecology of the area

V. Assessment of new forestry programme (what is the opinion of people?).

VI. Joint Forest Management Committees.

- First meeting- who came-how many people attended-what assurance was given? *Chairman - Is he using forest? Connected to ~~Dept~~ Forest Dept?*
- What is the view of people about these committees?

VII. How can they participate in planting Trees? Their ideas. (Peoples ideas on how to grow trees on barren land).

✓ As the report indicates, the old enclosure of the commons that was achieved by forest reservations is being deepened by a new enclosures of the commons to be achieved by zonation . It is infact this exclusion of local communities from forest use and management that is shrouded by their inclusion in the management of Zone IV which constitutes a mere 1% of the entire forest area. The exposure of this farce of participation is the focus of this report, in order to ensure that authentic policies that ensure people's real participation are evolved.

x Different models of conservation. For local communities.
