D/sir,

I had applied for wheat seed in June 1967 and you had very kindly assured me vide your D.O. No. PA/2248 dated 15/16-6-67 that you had requested the Head of ~~Research~~ the Dept. of Genetics to register my name for supply of seed Sarbati Sonara 64 etc etc.

I have since been allotted 1Kg each of S227 and S308, I request you to please allot me Sarbati Sonara 64 which I am told that this is being allotted by you.

Thanking you in anticipation.

Kopergaon Panchayat Samiti,  
Kopergaon

Sir,

Please refer to your letter dated 18th Oct. 1967 addressed to my Minister regarding supply of seeds. I am desired to state that the stocks of Sharbati Sonara are limited and Govt. has taken a decision to reserve the entire stock for planned multiplication with a view to make available quality seeds at reasonable prices in sufficiently large quantities for general cultivation in the country during Rabi 1968-69. As a special case, however, 2 kgs. seed of this variety are being reserved for you. If you so desire, you may get in touch with the Director, IARI to whom a copy of this letter is being sent.

Yours faithfully,

Private Secretary.

15.10.67.

The Director,  
I.A.R.I.  
New Delhi.

Dear Dr. Swaminathan,

I called at the I.A.R.I. about a fortnight ago in connection with the supply of new varieties of high yielding wheats, but unfortunately I could not see you as you were too busy.

I went to what used to be the Botany division and met the officer in charge there. I requested him to book my order for at least two kg. of either Sona 227 or Sharbati Sonoro 64.

I also called at Cummings Laboratory and was fascinated at the exhibits which I saw there and at the fine work they were doing.

I was informed however that many thousands of bookings for wheat seed had been registered and that supply depended on availabilities in the face of these heavy orders.

I am writing now to remind the I.A.R.I. of my registration and also to put in a claim for priority in view of the special facilities available at my farm here for seed multiplication without any risk of admixture of other grains and in view of the meticulous attention to the smallest details of wheat culture which is provided here, under my personal supervision.

As the season is coming closer, I trust my order will be supplied and that I shall be informed so that I may collect the same in person.

Yours sincerely,

M. S. Buech

New Delhi  
October 16, 1967

342

Dear Shri Swaminathan,

This is regarding supply of seeds of your new wheat varieties to me. Shri H.K. Jain, Head, Division of Genetics in your Institute had, in his letter No.F.17/1/4288 dated the 3rd July, 1967 informed me that I would be supplied with 2 kgs. seeds of each of the three varieties mentioned in my letter of the 20th June. I am now informed by your Institute (vide their letter No.20/FOC/W/3572 dated 7th October, 1967) that I would be supplied with only 1 kg. seed of two varieties i.e. S 227 and S 308.

I shall be very grateful to you if you kindly supply me 2 kgs. seeds of each of the three varieties including SARBATI SONEHRA, instead of 1 kg. each.

With kind regards,

Yours sincerely,

Dear Dr. Panje:

Thank you very much for your kind letter dated October 7, 1967. We have been asked by the Ministry to hand over all our nucleus seed to the National Seeds Corporation. As such, I am very sorry that we are not in a position to supply you with 10 kg of seed. I shall, however, examine whether a small quantity can be sent to you for being dibbled and multiplied carefully.

With kind regards,

Yours sincerely,

Dear Sir,

I am in receipt of your letter No. PA/3965 dated. 30.9.67. As I advised by you I am already concentrating Mexican Varieties, Lerma Rojo and Sonora-64 in 1000 acres in this District during the current Rabi. I only wanted new Mexican Varieties with amber grain colour. If I am given a few grams of new varieties with amber grain colour I can test their performance as well as multiply by sowing under dibbling method.

Kindly consider my request and arrange for the supply of a few grams of the new Mexican varieties. I shall feel very much obliged.

October 3, 1967.

My dear Shri Azad,

It was a great pleasure to hear from you again and also to know that you have been successfully propagating the growing of the new improved varieties of rice. I thank you for your kind invitation but I have so many commitments that I cannot make a firm promise. If I come that side I would certainly let you know.

Regarding the variety 'Sharbati Sonora' it has been released only this year and seed is very very scarce. I am sending your letter to Dr. M.S.Swaminathan, Director, I.A.R.I. but I am doubtful whether he would have any seed to spare this season.

I have very pleasant memories of our past association and send you my best wishes,

Yours sincerely,

For his kind attention of Dr. H. K. Jain

Dear Sir,

I have a farm in Mehrauli comprising a little over 4 acres, which is fed by tube-well water, all facilities for proper drainage having been provided. Since I am very much interested in farming, & boosting the yield of my wheat crop, I would greatly appreciate it if you would kindly supply me with wheat seeds of Sherkati - Sonara variety -

Your assistance in this matter would be greatly appreciated.

With best wishes,

Yours sincerely

COLLECTOR'S HOUSE,  
BASTI.  
SEPTEMBER 29, 1967.

Dear Dr. Pal,

I am writing this letter after a long time to you. Of course, I have been keeping myself informed of the great National Service being rendered by you to the country in stepping up food production, particularly, the evolution of High Yielding Varieties of wheat which have revolutionised the Indian Agriculture.

In Basti district of Uttar Pradesh, where I am posted at present, we have taken up an ambitious programme of High Yielding Varieties. You will be glad to know that during the current Kharif, we have successfully taken 33,200 acres under Taichung Native I which, ~~is~~, according to my information, is the highest area in any single district of U.P. In this season we have also introduced I.R.8. During the forthcoming Rabi we have set up a target of 2,02,000 acres under the High Yielding Varieties of wheat including 1,29,900 acres under Maxican wheats. To request you to visit Basti during the current

69/14/12/16  
37

Khariif to see our work is late. However, I would very much request you to snatch some time from your busy schedule to visit Basti during the coming Rabi. It will not only be a great personal honour to me to receive you but also it will provide great encouragement to the team of workers engaged in this task in Basti district.

Further, I have myself sufficient land in my bungalow compound. During this season I have successfully taken Tachung Native I and I.R.8. During the coming Rabi I wish to take some of the latest varieties released by you, particularly, I want to have some seed of 'Sarbat i Sonaro'. I know my request is very delayed, still I do hope it will be possible for you to find atleast 10 kgs. or so of this variety. I will pay the cost. The material may kindly be sent at the above address.

Dear Shri Bakshi,

Thank you very much for your kind letter dated the 21st September, 1967. At the recent wheat seminar it was decided that we should not conduct any trial on the farmers' field. I therefore regret my inability to do so. Regarding the supply of seeds of Sharbati Sonora, if our stock position permits, we shall be sending you soon an allotment letter informing the quantity of seed allotted and price etc. The distribution of the seed will be made in the middle of October.

With kind regards,

Yours sincerely,
