

Dear Mr. Bahadur,

Raghubar

May 23, 1947.

Thank you for your letter of

April 29, 1947. Herewith I am returning the bill stamped and signed. My total annual income is now as follows:-

(1) Salary from the University	Rs15,000
(2) War allowance on the above	Rs 2,625
(3) Honorarium from the C.S.I.R.	<u>Rs 6,000</u>
Total	<u>...Rs23,625</u>

My contribution to Provident Fund with Allahabad University is equal to Rs1,200, ~~which~~ Insurance premium Rs2,625, making a total of Rs3,825, on which a rebate may be allowed. You may deduct the income-tax on Rs500/- every month at the average rate appropriate for the above income and rebate.

Yours sincerely,

Uru

Telegrams :

CONSEARCH

D.O.No. 168-PLG (23)/NPL/47.

Delhi 29th April, 1947.

Dear Sir Krishnan,

I enclose six blank forms to enable you to draw your honorarium of Rs.500/- P.M. from the Council in connection with the work of the National Physical Laboratory. In order that you may receive payment from the Council office on the 1st of every month it is suggested that about ten days before the payment is due you may kindly fill in one of the forms and send it to me from month to month. This office will so arrange that the cheque will be despatched to you sometime towards the last week of the month and you can cash the cheque on the first of every month. I am also sending you the bill for the month of April which has been prepared in this office. You may kindly sign it on places marked in pencil.

As you are already aware income-tax will have to be paid by you for the honorarium you receive from the Council. Will you kindly let me know whether you would like us to recover this amount from your bill every month. In that case it will be necessary to know the total annual emoluments you receive from the Allahabad University. In case you desire that recovery should be made by the Allahabad University I shall inform the Registrar of the Allahabad University the amount you receive ~~annually~~ as honorarium from the Council during the year 1947-48. In the later case a certificate to the effect that this procedure is being followed may please be attached to your honorarium bill every month.

I have already received the details of

your

your visit to Delhi during the first week of this month and I am arranging to send you a cheque for the amount due to you in this connection shortly.

With kind regards,

Yours sincerely,

R.P. Bahadur

(R.P. Bahadur)

Sir K.S. Krishnan, F.R.S.,
Allahabad University,
Allahabad.

April 29,

47.

My dear Dr. Mathur,

Thank you for your letter of 24th April. Dr. Verma also wrote to me about his having been offered the Directorship of the Indian Standards Institute.

I shall be leaving for South India on the 3rd ^{of May} via Calcutta and shall take the opportunity to visit the showrooms of the Disposal Department. I shall be returning to Aligarh on the 17th and shall stay there till the 19th evening. My programme after that is indefinite and depends on meetings of the B.S.I.R. which, I understand, are being arranged at the end of May at Bangalore. If meanwhile when you are in Bombay you can visit the showrooms there, We can decide whether it will be desirable to visit there again and place orders for the purchase of apparatus. If there are no meetings at the end of May I shall be free from the 20th and propose to spend ^{the time} at Delhi as ~~also~~ part of June.

With kind regards,

W. S. Mathur

My dear Prof. Krishnan,

I am sending you copy of a letter received from Dr. W.M. Vaidya who has been selected as Assistant Director in the Optics Section of the National Physical Laboratory. Dr. Vaidya is working in the Imperial College of Technology in London.

In the letter he gives prices of three Spectroscopes available which are being offered by Bakers and which Dr. Vaidya has inspected and approves of. The prices are substantially lower than the new prices and if you agree, we might order all the three instruments as suggested by Dr. Vaidya. The total cost of the three would be £ 740/- as against £ 1410/- for the new instruments. Kindly say what you would like to do in the matter.

Yours sincerely,

K. N. Mathur

Prof. Sir K.S.Krishnan, FRS.,

Copy.

Chemical Technology Department,
Imperial College, London S.W.7.

15th April 1947.

Dear Sir,

In this week's Nature valuable Spectroscopic has been offered by Baker and I think we should not let this opportunity slip. Either your own Laboratories or the University or "equipment" under our scheme should purchase it. I have asked the firm to hold the sale till the matter is decided from India. The apparatus consists of the following

1. Quartz of glass E 1 -	£ 530	Hilger	New	Deliver
2. Measuring micrometer-	£ 100	!	£ 920	nine
2. Constant Deviation -	£ 110	!	800	months
			190	

I have inspected the apparatus and it is in good condition. Considering the difficulties of getting any kind of apparatus, I humbly suggest, we should strike the bargain. So if you approve of the purchase, kindly send me a cable.

Yours very sincerely,

W.M. Vaidya

My dear Prof. Krishnan,

Many thanks for your letter of the 29th April. I note that you will be leaving for Calcutta on the 3rd May and will see some of the disposal material in the Show rooms there. If possible, please have a look in the Showrooms of the Tata Air-Craft Ltd. at Titaghur, as I understand that ^{the} best machine tools are available with them. I learn from the Government of India Disposals here that almost all the machine tools with them have been disposed of. The rest are being transferred to the various Regional Directors of Disposals.

I am negotiating with the American Disposals here for the purchase of some ordinary type of routine measuring instruments like Galvanometers, Milliameter, Radio test meters and some photographic instruments. They are ^{not} ~~highly~~ precision instruments but good laboratory-grade meters.

I

I am informed that a meeting of the Scientific Manpower Committee is being held on the 12th and 13th May. Sir S.S. Bhatnagar thinks that this is an important meeting which you would probably like to attend. If so, we should expect you here on the 12th morning at the latest. I am leaving for Bombay on the 3rd morning and hope to be back by the 12th or 13th May.

With best regards,

Yours sincerely,

My dear Prof. Krishnan,

I am sending you herewith a proforma form. Please return it to me after filling the necessary particulars.

As decided previously, I am leaving for Bombay on the 3rd May and hope to return on the 11th or 12th after finalising the lay-out plans. I wonder if we can leave for Calcutta on the 15th or 16th May for five or six days. In case you are not free during those days, I might pay a preliminary visit and prepare a list of suitable apparatus and other materials available there after which we could go down together, say early in June. Kindly let me have a reply by return.

I learn just now that Dr. Verman has been offered the appointment as Director of the Indian Standards Institution. I think now it should be possible

for

for you to join here as early as possible to
push the construction work of the National
Physical Laboratory.

With best regards,

Dear Dr. Mathur,

I received last evening your Air Mail letter enclosing copy of the letter from Dr. Vaidya regarding two Spectroscopes and Measuring Micrometer offered for sale by Baker. If, as Dr. Vaidya, who has seen the apparatus, says they are in good condition, I think they are well worth the prices mentioned and we may authorise Dr. Vaidya to order for them.

I am afraid I shall not be able to return to Delhi in time to attend the meetings of the Scientific Manpower Committee. The earliest I can be back in Delhi is the 20th of May. I had planned my South Indian programme expecting the Scientific Manpower Committee to hold its meetings either at the end of April or early May as ^{then} ~~was~~ originally proposed ^{to do}.

With kind regards,

Yours sincerely,

U.S.N.

To

Dr. K.N.Mathur,
Assistant Director,
National Physical Laboratory India,
Imperial Secretariat, North, New Delhi.

U

May 3,

47.

My dear Sir Bhatnagar,

The Executive Council of the University at its meeting held on April 26, agreed to the interim arrangements proposed by you in your letter to me, a copy of which was sent by you to the Vice-Chancellor with your D.O. I wrote to Vice-chancellor before the meeting, in partial modification of my previous letter to him that I might be required to join as whole-time Director earlier than April 1, 1948 - the date mentioned both by you, and by me previously, as the date when I would be required to join - and asking for permission in that case to join earlier. I understand from the Vice-chancellor that the University will be able to relieve me sometime in October, just before the University closes for Dasehra Holidays, by which time they expect to be able to appoint my successor. Under the circumstances I do not think I shall be able to leave the University earlier.

I am sorry I shall not be able to attend the meetings of the Scientific Manpower Committee to be held in Delhi on May 12 and 13, since

I ..

I had agreed to preside over the Jubilee celebrations of an institute in South India, expecting the Scientific Manpower Committee to hold its meetings at the end of April or early May as they originally proposed to do.

I expect to return to Delhi from South India about the 20th of May.

With kind regards,

Yours sincerely,

M. Krishna

PROFORMA.

ANNEXURE II.

(Requests for training facilities).

1. Sponsoring Authority: Council of Scientific and Industrial Research, New Delhi, India.

II. Scheme or Project for which training facilities required.

III. Background Information.

(a) Brief particulars of the project in relation to which training facilities are required.

WORK ON 'SEMI CONDUCTORS'

(b) Brief reasons leading to the request:

To study thermal emission from
"Semi conductors"

IV. Training facilities required:

(a) The type of training subject or course required.

(b) The standard or level at which the training is to commence and the standard it is desired to attain.

V. Nature and purposes of training:

(a) Ultimate purpose or object of the training with a statement whether the candidate is working at present with a foreign expert or will work on return, whether it is intended that the trainee on return would replace a foreign expert.

To specialise in "Semiconductors"

(b) The specific problems which the trainee would be expected to handle on return. Work on 'Thermionic emission'

(c) The capacity in which it is intended that the trainee shall be subsequently employed.

(d) How does it advance the programme of the scheme or

(Reverse.)

DIRECTIONS FOR NOTE.

1. A pay bill may be presented at a district treasury two days before the last working day of the month by the labour of which the pay is earned ; but see rule 217

2. A pay bill may, if desired, be enfaced for payment to a Banker or Agent and submitted for collection through such Banker or Agent ; this will obviate the necessity of the Government servant's attendance in person or by messenger, as payment may then be made direct to the Banker or Agent

3. The period for which a subscription to a Fund is due should be specified when it differs from the period for which pay is drawn.

4. In the case of Government servants entitled to Sterling Overseas Pay, fund deductions are based on the Rupee Pay *plus* the rupee equivalent of the Sterling Overseas Pay

NOTE 1.—Treasury Officers should see that all compulsory deductions including those for Indian Civil Service Provident Fund are duly made and that the schedules showing particulars of Fund deductions, are attached to the pay bills.

NOTE 2.—Subscribers to the Sterling Branch of a Provident Fund should note on the bill and in the Fund Schedule attached to the bill that the recoveries relate to the Sterling Branch.

VI. Qualifications of the candidates proposed.

(a) Name of candidate.

SUNDARARAJA VEDANTHAM

(b) Date of birth.

19-8-1932.

(c) Educational qualifications or standard attended by the proposed trainee (Please give complete details).

M.A Degree in Science
B.Sc. Degree.

(d) The nature of the employment and practical experience, if any, he has already acquired.

Scientific Assistant.
Working on "Thermionic Emission".

(e) Country of study.

India.

VII. Number of candidates proposed.

VIII. Proposed duration of training.

(a) Number of months:

(b) Date from which training required or candidate can be made available.

(c) How much notice is required ?

~~1000~~

IX. Previous efforts to obtain similar training facilities.

Nil.
