A.S. Clausi  
Chairman, Council of Advisors  
General Food World Food Prize

Dear Mr. Clausi,

It has been a pleasant and impressive experience for me to attend the First Annual Awards Ceremony for General Foods World Food Prize. The fascinating work Dr. Swaminathan has completed for hungry people inspired me. At the same time, I admired your hard works to make this event to come true. Since I am the only person who represented P. R. China, I feel strong obligated to advocate this marvelous Prize among my colleagues in China. other than writting a report, I have made several appointments to meet Madam Yu Ruo Mu, my nominee for next year's Prize; Vice Premire Yiao Yi Lin; Minister Wang Wen Zhe of the Light Industry and also the President of China Food Industry Association; Professor Shen Zhi Ping, the President of China Nutrition Association; Minister Jiang Xi of Commerce and also the President of China Cusine Association; and Minister He Kang of Agriculture. I think I need more materials about this event such as; more than 5 copies of brochures for ceremony and the colloquium before it; Dr. Swaminathan's curriculum vitae; news clips from the press.

suggestion attached

I understand the significance of impact of the World Food Prize if it could get enough publicity in China. I hope my people, not only Madam Yu but more and more people in future could make their work better to get this Prize. This will be a good advocacy in China. We, Chinese, just open our door to the world and find out we have a lot to learn and to contribute. We also need the world recognition which is only achieved by planty of exposure and active participation of world event like General Foods World Food Prize.

Many Thanks.

Sincerely Yours

Dr. Qing Wang  
Director
