

Sir K.S. Krishnan F.R.S
Director

June 4, 1954

Dear Professor Ubpelohde,

I was happy to read an announcement in one of the April numbers of 'Nature' received here recently that you have been appointed Professor of Thermodynamics in the Imperial College of Science and Technology, London and that you will be moving to London shortly. I expect to be in Europe this summer attending the meetings of the International Union of Pure and Applied Physics in London and the Conference on Solid State Physics at Bristol and the meetings of the Union of Crystallography in Paris. I do not know whether you would have shifted to London by that time or whether you would be attending any of the Paris conferences. In either case I shall have an opportunity of meeting you after some years now. I carry some happy memories of my last visit to Queens University seven or eight years ago when Professor Ewald was also there.

With kind regards

yours sincerely

Dear *Krishnan*

Thank you for your letter of June 4th, which I much appreciated. I am myself planning to attend the symposia of the Union of Crystallography in Paris, and hope to meet you there.

Kind regards,

Yours sincerely,

A.R. Ubbelohde
