To,

The chief Conservator of Forests
Kerala.

Through the wild life warden
Wayanad.

Sir,

The terrific conflagration has charred to
nil a vast area of the wayanad wild life sanctuary.
The wild fire has destroyed not only the precious
plants and trees but also the rare birds and
animals.

It is quite unfortunate that the forest
department is indifferent towards the wild fire. The
inefficiency of the forest department in protecting the forest
area from wild fire is criminal and unpardonable.

We humbly request you to take necessary steps to
prevent the wild fire and ~~to~~ protect the wayanad wild life
sanctuary. We also demand an enquiry into the reasons
for the great catastrophe that has befallen on the wayanad
wild life sanctuary.

Yours faithfully.

~~Thomas~~
