Dear Dr Krishnan

13/11/57

The Engineering Association of this College is arranging a series of lectures of Engineer and Scientific interest during the winter months. These lectures are usually at 4.15 p.m. and last about an hour.

We would be most grateful and would regard it as an honour if you would give a lecture before the Association in February 1958. The choice of subject would be left to you though we would prefer something of more or less direct interest to engineers.

If you are able to come, I suggest that you take the Howrah Mail, leaving Delhi at 8.30 a.m. on the day of your lecture. This would get you to Aligarh at about noon. I would be very pleased if you would have lunch with me that day. After the lecture you could take the Howrah-Delhi Kalka Mail, leaving Aligarh at 6.50 p.m. This would get you to Delhi at 9.00 p.m.

I do hope it would be possible for you to give a lecture here. Please let me know the date that would suit you.

Yours Sincerely,
C. R. Mangat-Rai

Dr. Krishnan,
Director,
National Physical Laboratory,
Delhi.
