

INTERNATIONAL RICE RESEARCH INSTITUTE

Memorandum

To: MSS

Date: 02.18.87

From: Victoria Coronel

Subject:

Let me thank you for sparing some of your time to discuss my recent training trip to India. Your interest and concern is very reassuring. It reaffirms my belief that the growth and well being of the junior staff, like the rest of your IRRI children, is close to your heart. Unfortunately, I missed to express my sincere appreciation for the opportunity and support you have kindly provided to make my trip feasible. For this, I am most grateful. You have my word that I will put to good use the techniques I have learned and work towards enriching our research activities in Plant Physiology.
