Dear Dr. Sukamaran,

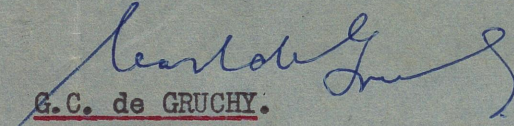

I was very pleased to receive your letter of November 29.

I well remember meeting you in Dr. Lehmann's laboratory; it seems that you have had a very pleasant and fruitful time studying in Europe and I do hope that you have the opportunities to carry on your work in India. Certainly your list of publications is most impressive.

We are busy organizing the Congress for 1966 and of course we hope to have a good representation from India. I do hope that you will be able to come. I shall also take advantage of your kind offer to stop over in Bombay when the opportunity next presents.

With kind regards and all best wishes,

Yours sincerely,

G.C. de GRUCHY.
