Dear Sir,

I am deeply grateful to you for your personal intervention to help normalize my relations with ILM. I like to reaffirm my continued commitment to the cause of ILM; I shall do my best to be helpful to ILM in whatever way I can.

I read with great interest your acceptance speech delivered in San Francisco. The contents are very relevant to the work I am doing with the Environment Group right now I shall share them with my colleagues.

I like to thank you again for the compliments you paid me in your speech at the ILM 10th Anniversary Celebrations.

I wish you a safe journey home and look forward to meet you on your next visit.

With warm regards

Sincerely

Nanda Abeywickrema
