Sir,

This is with reference to the report you are preparing to submit before the Grievances Redressal Authority regarding the Narmada issue.

We are a group of concerned citizens hailing from the southern most state of Kerala. We have been keenly following the history of development projects in India. Since Narmada Valley Development Project represents one of the biggest schemes this century has seen, we are anxious about the consequences. Many of us have visited the valley & seen for ourselves the magnitude of destruction, the social upheavals and displacement, all of which cannot be mitigated by a term "Compensation or Resettlement".

We write this to you & appeal in the name of mercy & justice to submit a report which will take into consideration the actual grievances & the actual redressals that the people of the valley have themselves been putting forth since 1986.

We are watching you, Honourable sir & look upon you to set a precedence by standing on the side of justice & peoples rights.

Yours sincerely

Babu Mylampsali
(President)
