Dr. K. S. Krishnan
National Physical Laboratory
New Delhi, India

Dear Krishnan:

I am delighted to learn that you are planning another visit to the United States running from the latter part of August into November. I hope that Washington will be on your itinerary, and that you will give me the opportunity to be your host both at home and with respect to any other activities you may wish to engage in while you are in the city. I am indeed looking forward to the further opportunity to see and talk with you.

Dr. Earnest Watson, our science attache in New Delhi, I understand is in touch with you. He no doubt will ask you for as firm an itinerary as you can or wish to supply. When I receive this, I shall undertake to make additional arrangements for your trip in the United States to the extent that you wish me to do so.

Very best personal regards,

Sincerely,

Wallace W. Atwood, Jr.
Director
