Dear Prof. Krishnan,

I was glad to read in newspapers  
the account of the formation of a  
United Academy of Sciences in India.  
This is an achievement of which you  
should be proud of. Though I notice  
the names of Sri Rajgopalachari,  
Sir C. & Shalmagar being mentioned,  
I could feel the part you have played  
in bringing together the two parties.

You would perhaps remember my  
talk with you, in the train from Calcutta,  
on this subject. I am glad all this  
is settled so neatly. Please accept  
my best thanks.

With kindest regards

Yours sincerely,  
J. Krishna
