November 20th, 1953

Dear Sir,

Known as "The most exciting magazine in the world", REALITES is a magazine of ideas and facts; ideas which stimulate the mind -- facts which inform with accuracy on all that is vital and essential in this kaleidescopic world of ours.

To read REALITES is to know the world you live in -- to share in its latest scientific and medical discoveries -- to see all that is best in art and fashion -- to keep in step with the march of men and events.

REALITES is a luxury magazine: its superb full-colour illustrations, its heavy art paper, its spectacular photographic coverage, combine to make it the best-produced magazine in the world.

REALITES is more than a magazine - it is an investment, a permanent addition to your library, something you will always be delighted to read and proud to show to your friends. Read it, enjoy it, and keep it forever.

A yearly subscription to the magazine costs £ 4.10.0 sterling. Should you wish to subscribe yourself, or to send a really worth-while gift to friends, all you have to do is to fill in the enclosed envelope, together with your remittance; if you prefer to pay only on receipt of your first copy, place a tick in the appropriate space.

We look forward to the privilege of including you among our readers.

Yours faithfully,

In case your subscription should reach us within fifteen days, we are offering you a special gift of one of our finest issues.
