Dear Miss. Krishnaja,

Thank you for your letter of October 22nd requesting instructions for authors to contribute to our journals. We would be most happy to forward this information if you will advise us in which particular area you are interested in. I am enclosing our 1981 Journal Price and Publication Schedule which gives you an accurate listing of exactly which journals we publish. If you want more information on any particular journal(s) I would be very pleased to send you the leaflet, on any you select. The leaflet tells you exactly what the journal is doing and in this way I will know which instructions you want and, if you like, we also send a sample copy. The instructions for all of these journals differ as they are made up by the various editors.

Very truly yours,

Elsie Newhouse

Dear Dr. Krishnaja,

I thank you for your recent reply of January 15th to my letter of December 22nd. I was pleased to hear from you and am enclosing a copy to show you the condition it arrived in. As you can see, part of the letter is missing and would really like to comply with your request but am unable to read all of your letter.

I can understand that you are interested in two of our journals namely Environmental Mutagenesis and Teratogenesis, Carcinogenesis, and Mutagenesis. I am forwarding to you the "Instructions to Contributors" for both of these journals. I think you are also requesting sample copies of each. I will take a chance and have these sent (under separate cover) but if I have misunderstood, please feel free to write me again. Hopefully the next letter will come in one piece or at least whichever parts I am unable to read now will be whole.

I look forward to hearing from you again.

Very truly yours,

Elsie Newhouse
