1st June 2011

AGENDA FOR THE MEET WITH ECOLOGISTS ON JUNE 1, 2010.

1) Since the appointment is done by the CO Matheran, as per the appointment letter, TA/DA issue to be payable to them.

2) Òverall concerns of Matheran where the experts can pitch in – issues of sensitivity of Matheran, Natural resources and its protection, water, forests, soil erosion - geological concerns AND misuse of resources – waste management & bio gas, forest reserves and fuel wood etc.,

3) Issue of the Charlotte Lake restoration. This is the same team who have filed resentment about their falsified names on Pallavi Latkar Report. So take working Plan opinion from them to allow the works to proceed. Pallavi Latkars Role for the future is to be considered, and decision taken.

4) Forests protection and Tree Plantation that the Council wants to take up – they have a proposal for this which needs to be guided.

5) Walkers Tank that came up for this last heritage Committee. An opinion on ganapati idol immersion here and its restoration scheme.

6) Revival of Simpsons Tank as a supply source.

7) Erosion control and embankments along the roads.

8) Strategic planning of all ecological concerns of Matheran

9) Role of the experts team, their scope of involvement in the ESZ and Matheran, as an Umbrella of expertise to be discussed and finalized, so that the Council considers their advice for the long term. These are experts from different fields and as such a clarity needs to be eveolved on each expert role.

10) Refer to Mon Comm minutes and locate any further scope of involvement required. (the Excel sheet prepared by Hema) – current revised version.

11) Any other as reqd.
