28 Dec. 83

Dear Krishna,

Yes indeed I
got your letter + silica Teewann
and recipe - all waiting still
till I get time to clear my
bench and actually do some
experimental work again. I seem
to spend so much time
writing (easier perhaps?).

It was a great
pleasure meeting you at
last - I was so pleased
that you were able to come.
I enjoyed the meeting anyway.
It seemed to go quite well. Best
wishes for the New Year Graham
