Shri Sukumaran,
Cancer Research Institute,
Parel, Bombay. 12.

Dear Sukumaran,

I am very thankful to you for your kind gesture in giving the electrophoretic pattern of haemoglobin (normal and abnormal) to Mr. V.G. Khandeparkar. The well separated bands of the abnormal haemoglobin were much informative to our students to understand the electrophoresis technique.

I hope you will be equally co-operative in future.

Yours sincerely,

Encl: your specimen
of electrophoresis
