26-4-1968

Dear Sir,

Professor Sir C. V. Raman will be reaching 80 years of age on the 7th November, 1968. All of us are aware of the great contributions he has made to Physics and Science in general by his genius, energy, enthusiasm and whole-hearted and life-long devotion to Science. Prof. Raman has been a beacon light to Indian Scientists. It would be fitting if on the occasion of his eightieth birthday the Fellows of the Indian Academy of Sciences present to him an address of felicitation and sincere appreciation and admiration for his services to India and the World. It is suggested that the address be signed by as many Fellows of the Academy as possible. I send herewith a form in which you may put down your signature and send it me for reproduction and inclusion in the book of signature.

It is proposed to request Prof. S. Bhagavantam, Prof. T. S. Sadasivan, Prof. V. A. Sarabhai and Prof. G. N. Ramachandran to form a small committee to draft the address.

Yours sincerely,

K R Ramanathan
