May 27, 1977

Respected Dr sahib,

I am much distressed to read the controversy about lysine and the undignified, unnecessary and unjustified provocation and reflection on your goodself (in the Statesman last fortnight). It is really sad. However I assure you we are proud of the contributions you have made to Indian agriculture and science. May God provide you still ample opportunity to serve the motherland!

With regards.

Yours sincerely,

*P. Kachroo*
