Dear Professor Krishnan,

In yesterday's meeting, the Senate resolved to appoint Dr S. Sivasankaranarayana Pillai (Reader, ^{Tiruvandhram}) as a lecturer in the dept. of Pure Mathematics on terms he has agreed with beforehand.

You may be inclined to congratulate me for succeeding to get this scholar in the dept., but I suppose you too will be glad for it. Probably you met Dr Pillai. He is a friend of our common friend Vijayaraghavan, and he is a son of South-India. — As the Head of the dept. I should help him in all difficulties; so I am feeling heavily my incompetence at the first occasion: to get an appropriate housing — provisional and definitive — for him. The authorities want him to join soon. If he wants to join before X-mas, not much time is left. So I am hoping for your kind assistance. If you will do so, please

drop him a line (Seaver College, Trondheim). I suppose
you will be ~~of~~ a great help to him.

Hoping that you won't curse me,

Yours very sincerely,

F. W. Levi.
