Professor N.V. Joshi  
Department of Biosciences,  
Indian Institute of Sciences,  
Bangalore-560 012. (Karnatka).

Subject: Request for suggestions regarding the sample size for analytical work of my research project entitled, "Estimation of stature from nasal height" sponsored by Ministry of Science and Technology, Govt. of India, Department of Science and Technology, New Delhi in the Department of Forensic Science, Punjabi University, Patiala-147 002 (Punjab).

-----

Respected Sir,

This is for your kind notice that Ministry of Science and Technology, Government of India, Department of Science and Technology, New Delhi has sanctioned me the above mentioned research project and I am directed by the funding agency to consult you for the sample size of the analytical work. I have already posted you a letter alongwith my research proposal to you in this context but I am failed to receive any reply from your side till today. If you feel that I should contact you personally, then I am ready to meet you personally at Bangalore and for that kindly suggest me the dates in the month of December which are most suitable for you.

With deep regards and looking forward for an early reply.

Yours sincerely,

(G.S. Kler)  
Preincipal Investigator

My dear Prof. Joshi,

I am enjoying a good time here and I hope that you will also be sailing on the same boat. Received your kind letter dated 16.11.1993 a few days ago and noted the contents.

I would like to bring to your kind notice that the D.S.T. has directed me to consult you even personally at Bangalore for the sample size of my DST sponsored research project so that I may be able to start my data collection for the project at the earliest. So, I have reserved my seat for Bangalore in the K.K. Express on 23.12.1993 and I shall certainly be able to meet you at your office on 26.12.1993. I am sure that with your kind cooperation, the sample size for the said research project will be decided.

With deep regards and best wishes.

Sincerely yours,

Prof. N.V. Joshi,  
Centre for Ecological Sciences,
