Dear Dr Krishnan,

This is to thank you for your great kindness and patience in showing our party round the N.P.L. yesterday. I very much enjoyed talking with you and seeing the kinds of work you are engaged in.

As you probably gathered, I am pretty much of a layman — since I ceased to teach physics about 15 years ago and took up the study of education and psychology I have found it hard to keep up to date in scientific reading. Nevertheless the visit was a sheer delight.

I feel sure that Martin, Oliphant, and possibly others in Australia would be interested to know of your translations of foreign papers.

With kind regards,

Yours sincerely,

J.H. Coates
